Subject: Proposed interim action objectives for Clean Harbors Wichita
Attachments: Table 1 - IAOs.pdf

Hello Ann,

Sorry for the delay in getting this to you.

As we discussed last Friday, I have attached the proposed interim action objectives for corrective action at the Clean Harbors Wichita facility. As we discussed, these values are the KDHE Tier II Soil to Groundwater protection values under a residential scenario.

Please let me know if you have any questions or concerns regarding these values as these will form the basis of our corrective action and will be used to certify that cleanup is complete.

Thanks for your support,

Mike Stephenson
